This object appeared first on Oct. 19, 67, and was sighted by my daughter, in approximately the same flight pattern, only about 1/4 of a mi. to the North of our home.

On Oct 20th, it passed directly over the house, 200' or 300' above, and the fact that there was absolutely no sound and no smoke or vapor trail of any kind, made it easy to conclude that in the shape of said object.

When the object appeared on Oct. 31, 67, several other people were here & also saw it. One being the reporter, Mr. ~~XXXX~~. It appeared almost the same time each one.

Gentlemen:

In regard to your letter of December 19, 1967, please be advised that our department had no report of unusual objects on October 20 or 21, 1967.

At that time the local papers carried a story that Mr. Warren Meyers, 7005 E. Bay Shore Road, Marblehead, Ohio, had sighted unusual objects in the area.

We are not aware wether planes or blimps were in the area at the stated time, although the local air-port is only 5 miles west of the Meyers home.

Sincerely yours,

The Famous 45 Year Old MARBLEHEAD LIGHT HOUSE

EACH AND EVERY ONE OF US will do our best to help You and Yours have a most Enjoyable Vacation.

In the heart of the scenic and historic Lake Erie Islands region, the Marblehead Peninsula is just the vacation spot you have been seeking.

Numerous cottages and camps dot the Peninsula's picturesque 20-mile shoreline on Lake Erie and Sandusky Bay. Broad, sandy beaches provide excellent bathing. Hotels, restaurants, food markets, and shops—as well as services of many kinds—are conveniently available. And churches—both Catholic and Protestant—provide for spiritual needs.

Truly a vacation on the Marblehead Peninsula is one which will appeal to the entire family. Dancing, golf, tennis, shuffleboard, cultural programs, symphony orchestra, theaters, amusement parks, boating, fishing . . . and many other forms of recreation are easily available.

The Peninsula provides the midwest's best fishing. Game and pan fish abound in the waters of East Harbor, Sandusky Bay, and along the Lake Erie reefs, north of the Peninsula. Rowboats and bait for along-shore fishing and cruiser-type boats for reef parties are available at many places.

Lakeside-on-Lake Erie, on the north shore of the Peninsula, is a summer community of 700 cottages, hotels, and auditoriums.

Nationally famous for its fine fruits, the Marblehead Peninsula is a blaze of beauty in blossom season, and during the Summer and Fall delicious fruit may be purchased at numerous roadside stands.

UFO Observation

Plainfield, Ind. 46168

Dear 

Reference your letter of 9 Oct 1967. Thank you for bringing these cases to the attention of the Air Force, however, because these cases occurred so long ago, we cannot properly investigate them.

If in the future similar sightings should occur, the nearest Air Force Base should be immediately contacted so that a complete investigation can be made.

Sincerely,

HECTOR QUINTANILLA, Jr, Major, USAF
Chief, Project Blue Book

Gentlemen:

Here I have two sightings which I am sure
can't be explained.

1. Interviewed 6-26-67 - 10 or 12 years ago near Ray, Minn.,
~~██████████~~ were driving along the old
road where the dump is now on Kabetogama Rd. at Kabetogama,
Ray, Minn. They were on the crest of a hill overlooking the
lake when, over the treetops below them, there was a
flying saucer. Said ~~██████████~~: "It was like a flat egg...
It was just as high as we were. It looked like it floated
over the treetops, which were at our level... It was about
10:00 P.M. I guess" (summer.) In the summer it is light till
11:00 or 11:30 P.M. at 10:00 it would be almost dusk.

He said another family viewed it from below it.
They said it was like a huge round thing. The nuts was clear.

~~██████████~~ is a Norwegian ^{immigrant} who was a
lawyer in Norway and America. He went to the Kabetogama
area when middle-aged and raised reindeer. He always liked
to carve and still does as a hobby. He has carved ^{more} than
25 or 30 clocks and a table and many chairs and accessories.

Delete

(over)

He is not one to make up a stretch like that saucer.
Delete { He very much believes something strange is in the skies,
but doesn't believe more than 50/50 in saucers. He does
think he saw a real saucer!

2. Interviewed 3/29/67 ~~Delete~~ was driving home
a few years ago with his girl when she showed
him what they both thought was a falling star.
It then stopped, coming towards them. They kept
driving towards ^{Deleter} ~~Deleter~~ until ~~Deleter~~ noticed
a football-shaped ~~football~~ object following
directly above the car. (He said he wouldn't have
noticed it except for "those darned purple lights
flashing.") He stopped, as did the saucer.
He got out and looked out at it, said some
unmentionable words and got ~~back~~ back in
the car and started driving. It then gradually
speeded up and headed for the right.

Delete { ~~Deleter~~ is more interested in girls and
everyday life than UFOs. He was a sceptic
before this, and now is a firm believer. He is
with the girl.

I may write about my sightings sometime,
but APRO and I are investigating first. (Meaning now)
These are unknowns, huh?

REPORT ON UFO SIGHTING

October 16, 1967

October 13, 1967. 10:20 am MDT On Colo Hwy 96 W of Ordway
Elev. 4300 ft. Road bearing S, 50 deg W. Inclined to SW 10.
Wind from N about 15 mph. Sky clear & blue overhead. High light
clouds to far north & south. Slight haze in Arkansas R. valley. Mts
to west (about 60 miles) dark & clear against clear sky.

I was driving west towards Pueblo and a few miles west of Ordway
I went around a slight curve where Hwy 96 straightened out on a long
tangent of a few miles. Down this tangent, at a low level, was a dome
shaped object. Color was dull aluminum. There were occasional flashes
of bright light. Shape resembled two pie plates with edges together
but top & bottom quite rounded. The object was visible down the stretch
of pavement but slightly left of the center. Vertical angle was low,
almost zero as the object was visible against the lower part of the
mountain range west of Pueblo, actually the Wet Mountains. I was looking
almost directly toward the area where several UFO have been reported
in the San Luis valley.

Because of this I made careful notes of all conditions that
might have any bearing on the sighting. As I drove SW at a speed of
about 50 mph I watched the object intently and constantly. As it
remained within the lines of the right of way I could do this safely.

I estimated the distance as possibly a few miles at most. The
object appeared to be approaching me at a fairly high speed. By noting
the perspective narrowing of the pavement and estimating the distance I
guessed the diameter of the object at 50 to 100 feet.

As it approached it maintained a remarkably constant elevation
but it seemed to yaw slightly horizontally. However it definitely
remained in view above the pavement, slightly left of center, as if
it was following the road. I watched it for many seconds and it
was approaching rapidly.

Suddenly the aluminum color and the flashes of light disappeared
in a split second. Instantly the color changed to a dark, almost black,
and the size decreased to a fraction of the first appearance. I realized
it was very close and moving swiftly.

I slowed down to about 20 mph and watched the dark object
closely. It began to move higher, or the vertical angle was increasing.
I could see that it soon would be above me.

Suddenly it was just above me. I stopped and looked out of
my truck window.

The UFO was 3 brown insulators on a guy wire between two
power line poles, one on each side of the highway. The 3 insulators,
in tandem, were slightly left of the center of the road. They were
perhaps 12 inches total length overall and about 16 feet above the
pavement. Brown ceramic with a high polish.

Don't ask me why

ON THE 20TH OF OCT. I WAS CALLED OUTSIDE BY MY WIFE TO SEE AN UNIDENTIFIED OBJECT THAT PASSED OVER THE HOUSE. I SAW THE OBJECT DISAPPEAR IN THE S.E. AT A HIGH RATE OF SPEED AT APPROXIMATELY A 60° ^{UPWARD} ANGLE FROM THE HORIZON. ON THE 21ST OF OCT. AT APPROXIMATELY 6:45 P.M. I HAD ADJUSTED AND SIGHTED IN THE CITY OF SANDUSKY WHICH IS APPROXIMATELY 15 MILES AWAY WITH MY 10-50 POWER BINOCULARS. MAKE OF BINOCULARS PROBABLY JAPANESE, NAME OF BINOCULARS - DIAMOND - 10X50 - # 12891 - 262 FT. AT 1000 YDS. THE OCT. 21, 1967 SIGHTING WAS MADE USING EYE GLASSES ALONE. I IMMEDIATELY PICKED UP THE OBJECT WITH MY BINOCULARS BUT HAD TO READJUST THE BINOCULARS FOR A CLEARER VIEW OF THE OBJECT. THE ADJUSTMENT (OVER.)

Appearance of UFO as observed - carefully.

WHAT IT WAS!

3 insulators on guy cable between two electric power poles.
Across highway, about 16 - 18 ft above pavement.

This observation was made carefully and seriously. Now I
feel a little bit silly.

When it hovered the pulsating increased in brightness but not in speed. The object hovered for about 3 or 4 min. at about a 15° position over the Western horizon. I don't know what it was but I know what it wasn't. #1 Not a meteor. I've seen plenty and they last only for a few seconds and they don't pulsate or "hover". #2 Not a twinkling star. I've seen plenty of those also and they don't twinkle with a pulsating rhythm. #3 Not a satellite. Even though boosters in orbit tumble (this might cause a pulsating pattern) but satellites don't stay in one place. #4 High flying jets at night? definitely not, I have observed those and they don't hover and their wing lights are extremely dim compared to what I saw, also there is sound
